Nidever of the Commercial Fishery Department of the Fish and Game Commission and residing on Dolores street, Keystone, has just returned from a two week's trip to the northern end of his district which extends along the San Francisco Bay region. His trip then extended along the coast to Monterey and then south as far as San Pedro. He says that the sardine canning industry at Monterey is at a standstill on account of the fishermen being unable to locate the schools of fish. There has been practically no fish taken for a period of fifty days which is the longest ever known at Monterey during the entire life of the industry. The slack period has been very hard on the fishermen as well as several thousand other people who depend on this industry for a livelihood. At San Pedro he found sardine fishing well under way and several of the packing plants starting to operate. The men at San Pedro start several months later than at Monterey.

TOWNE TALKER "Just for Fun" By RAS BERRY

Well, at last the tide has swung the other way and Notre Dame beat U. S. C. even if they had to win it through the good services of the officials. And what I mean is when you can pick a winner that has got to win through the umpire why you is a good picker.

So now that I have at last picked a winner via the umpire why I got the nerve to select some more winners and they is Washington vs. U. S. C. Sat. and Pittsburgh vs. Stanford on New Yrs. Day.

And them as disagrees with me can make a mind bet. They is a lot of folks that is vs. the overhead lighting system because they say this is a American town without many foreigners and they don't want a lot of poles standing around the street corners.

They is a big printed list up to Palos Verdes and it shows the names of all golf players in So. Calif and what their handicaps is. Wallace Post's name is on the list only you wouldn't know it unless you knew it. The list carries his names as W. J. Post. Mr. Post

says that was because he plays such a sweet game of golf. I said it was because he blossoms out so effulgently in his pepper and salt knickers. Slip Kelsey he says it was because so many birds would put the bee on him.

Ben Lingenfelter will stay up all night or get up in the middle of the night if they is a hunting party about or shoreback.

But he never had a reputation as a night prowler until the other night.

Ben he was itching for a hunting party and so he prowls around late at night looking for a partner and he thinks of Harvel Guttenfelder and heads down Harvel's way.

The house is dark but Ben knows Harvel will get up any time to shoulder a gun so he yells out in front and don't raise nobody so he goes up to the door and kicks it and bangs away at it and pretty soon he hears somebody padding across the floor in his bare feet and Ben thinks well here comes Harvel and well have a good hunt and imagine his embarrassment when whoever it is inside yells out what and the hell do you mean banging around out there and what and the hell do you want and then the door open and it is Frank Summons, but before the door opens Frank has said a lot more that ain't printed here and then it was Frank's turn to blush when he has cussed the door and see that he has cussed out a minister.

But anyways Ben finds out that he has picked out the wrong house and Frank tells him where Harvel lives and Ben gets Harvel and they go hunting. Frank says he thought it was some drunken stew banging his door and was all ready to bust him on the beizer.

The moral is that nocturnal hunters should ought to know their geography.

Ben says Frank can cuss as

pretty as anybody he ever hear and Frank says Ben missed his calling and should ought to be a housewrecker instead of a preacher.

10 Objections Answered

It is indeed a clever fellow who can think up an "alibi" for not joining the Chamber that we haven't heard before. As for a real, honest-to-goodness REASON—we have yet to find one. At any rate, don't spring any one of the ten "old reliables" on us. There's an UNANSWERABLE answer to every one of them! Better just say "Yes" right off the bat!

- 1 "I Don't Like the Way They Are Running Things" They act in and help change them. If you are smart you will doubtless find many other objections with you. Take a deep breath and re-organize. 2 "I Haven't Time to Attend the Meetings" They couldn't prevent you from extending your hand and financial support. If they were willing to give their money and time, you could be willing to give some, also. You should attend as many meetings as possible. You'll get new ideas, new thoughts, and new energy from meeting with the type of men who make up the Chamber of Commerce. Are you really too busy? 3 "I Belong to Too Many Clubs Now" The Chamber of Commerce is not a club. It is the organized citizenship of Torrance, formed for the general welfare of the whole community. Membership in a club is optional. Membership in the Chamber of Commerce is a duty. The first duty of every business and professional man. It's the rent he pays for living in and on a community. 4 "You Have Enough Without Me" No excuse could be more selfish. Because other men are willing to pull a load uphill is no reason why you should catch on behind and ride. You share in the benefits of the working of the Chamber of Commerce; you cannot avoid it if you live in Torrance, so why not carry your end? The more members the Chamber has, the stronger it will be, and the more it can do for Torrance. There is no "enough" in this work. The problems and duties are unlimited. 5 "I Can't Afford It" There are mighty few business men in Torrance who really can't afford to invest 1-3 cents a day to advance the business, civic, industrial, commercial, educational and other interests of their city. 114 cents a month out of an income such as yours is a mighty small price to pay for the benefit, and, furthermore, you are not the man to share in these benefits without doing your part. 6 "There Is Nothing in It for Me" The Chamber of Commerce is not a selfish proposition. It makes no appeal to the man who wants to use it for his own selfish ends. The man who joins the Chamber should do so with the sole intention of thus contributing to the welfare of Torrance. Perhaps the Chamber may be of some direct assistance to him, to his business, or to his line of trade, but ordinarily he does not expect direct financial returns from his membership. 7 "I Haven't Any Use for the Fellows Back of It" We don't like men when we don't know them well. Men we once thought cool and interesting, become mighty good fellows on closer acquaintance. "Get acquainted" with them, you might like them. There are no cliques in our organization. 8 "Others in My Line Are Not Members; Why Should I Be?" Because other men are shirking taxes doesn't excuse you. Because other men mistreat their families would be no standard for you. A man who hides behind other men's failure to do their duty is hard up for an excuse. You should be an example for your trades, come on in, and then you can invite them to join. 9 "There Is No Way I Could Take Part" You could serve on our membership committee or other committee in which you may be directly interested. You can use the services of our various bureaus. 10 "We Are Only a Branch—Our Home Office Is in Los Angeles—San Francisco." The fact that your people have just opened a branch in Torrance indicates that they have interests here. Equitable freight rates and freight service which you are enjoying are the result of Chamber's efforts. The fact that you are only a branch is all the more reason why you should support the Chamber. Tell your home office that your branch should support this Chamber in the same way other businesses do.

There are no initiation fees—Dues are \$5.00 per year (less than 1-3 cents per day) payable annually in advance.
